PROFILE SUMMARY

Frontend Developer with 3+ years of experience building scalable and high-performance web applications using React and modern JavaScript frameworks. Skilled in creating responsive user interfaces, optimizing performance, and integrating REST APIs for seamless functionality. Possesses working knowledge of Full Stack development, including backend integration and database handling. Also has hands-on experience in AI/ML, with the ability to work on data preprocessing, model development, and integrating intelligent features into applications.

SKILLS

Languages: Python, JavaScript (ES6+)

Frontend: React.js, Next.js, Angular, HTML5, CSS3

Backend: Node.js, Django, FastAPI

AI/ML: Pandas, NumPy, Scikit-learn, PyTorch

Databases: MySQL, MongoDB, PostgreSQL

Tools: GitHub, Docker, Postman, CI/CD Pipelines

PROFESSIONAL EXPERIENCE

Frontend Developer

Wilson Wings, Bengaluru, Karnataka

Oct 2022 – Dec 2025

- Developed and maintained scalable React.js applications, delivering responsive and high-performance user interfaces. Integrated REST APIs and backend microservices, enabling real-time data flow and seamless frontend-backend communication.
- Collaborated with backend teams and contributed to API integration, data handling, and application logic implementation. Worked on backend-related tasks using technologies like Flask/FastAPI, supporting feature development and system functionality.
- Optimized application performance, improved load time, and ensured cross-browser compatibility.
- Built reusable components and followed modern frontend architecture practices to improve development efficiency.

AI/ML Certification Program

Zidio Development, Karnataka

Mar 2025 - Jun 2025

- Developed machine learning models including a recommendation system and SMS spam classifier.
- Performed data preprocessing, feature engineering, and model evaluation using Pandas, NumPy, and Scikit-learn. Applied classification and similarity-based algorithms to solve real-world problems.
- Gained hands-on experience in supervised learning, NLP, and data-driven application development.

PROJECTS

Social Media Platform - sneakpeach.com

- Developed a full-featured social media platform focused on user engagement and monetization. Users can create accounts, interact with content, and access premium features through a subscription-based model.

- Built a dynamic and responsive frontend using React, enabling real-time updates and smooth user interactions. Integrated secure authentication and a payment gateway for subscription management. Connected REST APIs for efficient data flow and optimized performance to handle multiple users and continuous activity.

Cab Booking Service - x-ride.co.uk

- Developed a vehicle booking platform designed for pre-scheduled travel and event-based use cases, allowing users to book a variety of vehicles including luxury cars, SUVs, vans, and buses for personal, group, or tour purposes. The system enables users to schedule rides in advance, select vehicle types based on requirements, and manage bookings efficiently.
- Built a responsive frontend using React and integrated backend services to handle booking workflows, user data, and payment processing. Implemented features like fare estimation, vehicle selection, and scheduling to ensure a smooth and reliable booking experience.

Movie Recommendation System (AI/ML)

- Developed an intelligent movie recommendation system designed to provide personalized movie suggestions based on user preferences and content similarity. The system analyzes movie features such as genre, cast, and keywords to recommend relevant content and improve user discovery experience.
- Implemented a content-based filtering approach using cosine similarity and integrated the TMDB API to fetch real-time movie data. Built an interactive interface and applied data preprocessing and feature extraction techniques to ensure accurate and meaningful recommendations.

EDUCATIONAL QUALIFICATIONS

Master of Computer Applications (MCA)

2017 - 2020

Dr. A. P. J. Abdul Kalam Technical University, Lucknow

Bachelor of Computer Applications (BCA)

2021 - 2023

Veer Bahadur Singh Purvanchal University, Jaunpur, UP
